WMUA 91.1

PROGRAM GUIDE

February, 1980

Dear Friends,

Over the years WMUA has developed a tradition of progressive alternative programming that the present staff and management are dedicated to continue. We feel diversity in music, accurate and pertinent news to the Pioneer Valley, Public Affairs that deals with controversy from local to universal issues, and sports with a university level accent are what our audience requires and desires. We realize that a good many of our listeners who are dedicated to some of our programs do not find many others to their taste. That is the inherent problem in a varied staff that is allowed a lot of self-determinism in choice of content in a block format. We encourage as wide a range of broadcast materials as possible to provide a scope of ideas, sounds and issues that will broaden the entertainment, cultural, educational and political scope of our audience. A free flow of information is vital to the health and growth of a true democracy and we work toward that end, hoping to promote any further development of that ideal. We hope this guide will assist you to locate programs you already enjoy and to sample ones you are not familiar with. Thank-you for your interest, your support and your ears.

To a Brighter Future

Eric S. Myers
Program Director

Main Street Records

150 Main Street
Northampton

We buy, sell & trade
new & used 45s & lps
